## THE STORY

A mysterious peril hangs over METROPOLIS: several citizens have disappeared without a trace!...

SUPERMAN is in pursuit as he tries to discover what has happened, while searching for the missing people. He leads an investigation which suggests that the disappearances are due to a secret pact between LEXCORP, run by LEX LUTHOR, and a strange extraterrestrial known as THE PRESERVER. It is soon revealed that LexCorp has been delivering live human and animal specimens to The Preserver in exchange for secret interplanetary technology. Superman's only chance to rescue the captives is to find special digital keys which will help him locate the prison hidden in Luthor's secret submarine base.

## LEX LUTHOR'S TRAP

To prevent Superman from freeing the captives, Luthor's henchmen attack Superman and draw him into a trap where he must fight the LEXOSKEL-5000.

.....

### Level 1 : Attack in Metropolis' Streets

Superman hears a call for help coming from the LexCorp building. He races to the scene, but when he arrives, the screams stop. Suddenly, Superman is surrounded by strange men in black trench coats called SHADOW WALKERS. With no time to react, Superman is caught in the middle of an attack!

### Level 2 : the Retro-rocket Men

Superman escapes the attack of the Shadow Walkers and stands guard on top of a building to watch over the city, while searching for some answers.

### Level 3 : A LexoSkel-5000 in the LexCorp Warehouse

Superman goes to the LexCorp warehouse to find information about the whereabouts of Lex's secret base. However, little does Superman know what many obstacles await his arrival.

### Level 4 : Underwater Passage

The LexoSkel- 5000 is standing guard to the entrance of a secret passage located inside the LexCorp warehouse. The passage is a secret trap door which leads to the sea. Superman dives into the unknown...

## THE SPACECRAFT

S.T.A.R. LABS has detected a spacecraft approaching Metropolis. Superman flies towards the craft to discover the intentions of its occupants.

.....

### Level 5 : Metropolis Skies

Superman seeks answers about the unknown spaceship. However, before reaching the craft, Superman is once again attacked by Luthor's Retro-rocket henchmen!

### Level 6 : The Preserver's Robots

After defeating Luthor's men a second time, Superman finally reaches the spacecraft and confronts The Preserver. To his surprise, he discovers The Preserver is a hunter of endangered species and is here to add human beings and animals to his collection before destroying the Earth. The Preserver's robot drones suddenly attack Superman and he quickly realizes he is first on The Preserver's list!

### Level 7 : The Metropolis Invasion

While Superman is busy battling The Preserver's robots, a gang of intergalactic bikers, known as THE INVADERS, swoop into Metropolis on flying motorcycles. Taking advantage of Superman's absence, the marauding bikers plunder the city. Superman manages to escape The Preserver's ship and races back to Metropolis to stop the chaos. Superman must confront The Invaders gang as well as some new arrivals on flying jet scooters.

## THE SECRET BASE

Superman's only hope in finding the kidnapped citizens and animals of Metropolis is to find all the digital keys. The keys are Superman's link to the location of Lex Luthor's secret submarine base.

### Level 8 : The Secret Passage

Superman suspects that an entry to the base is located in the LexCorp basement. He goes to investigate, but it is well protected. Superman must find another way inside...

### Level 9 : The Current

Lex Luthor has placed sharks and mines to protect his base from any intruders, including the MAN OF STEEL. However, Superman's biggest challenge is getting through a strong underwater current. He will have to be careful to avoid getting trapped in the rocks!

### Level 10 : The Submarine Base
